Collecting Racial and Ethnic Data

04.01.09

Though the department does not report individual student or staff data to the federal government, the total number of students and staff by race and ethnicity of each school is reported. The following sections define how race and ethnicity is collected using a two part question, how observer identification is used for non self-identifying students, and an overview of reporting racial and ethnic data to the IDOE.

Two part question for students and staff

Districts must collect race and ethnicity information on students and staff using a *two part question*. The respondent must answer both questions. Districts should implement the re-evaluation of students in 2009-2010 to be reported in July of 2010. District enrollment forms will need to implement the two part question for all fall 2010 enrollees. Districts should plan to train staff to assist enrollees in responding to the two part question. **Example:**

Race and Ethnicity: (Note: Both Part 1 and Part 2 of the question <u>must be answered</u> .)	
Part 1: Ethnicity	<p>Is this individual Hispanic/Latino? (Choose only one)</p> <p><input type="checkbox"/> No, not Hispanic/Latino</p> <p><input type="checkbox"/> Yes, Hispanic/Latino (A person of Cuban, Mexican, Puerto Rican, Cuban, South or Central American, or other Spanish culture or origin, regardless of race.)</p>
Part 2: Race	<p>What is the individual's race? (Choose one or more)</p> <p><input type="checkbox"/> American Indian or Alaska Native: A person having origins in any of the original peoples of North America and maintaining cultural identification through tribal affiliation or community recognition.</p> <p><input type="checkbox"/> Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.</p> <p><input type="checkbox"/> Black or African American: A person having origins in any of the black racial groups of Africa.</p> <p><input type="checkbox"/> Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.</p> <p><input type="checkbox"/> White: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.</p>

Home Language Survey (HLS)

The Civil Rights Act of 1964, Title VI, Language Minority Compliance Procedures, requires school districts and charter schools to determine the language(s) spoken in each student's home in order to identify their specific language needs. This information is essential in order for schools to provide meaningful instruction for all students as outlined Plyler v. Doe, 457 U.S. 202 (1982).

The purpose of this survey is to determine the primary or home language of the student. The HLS must be given to all students enrolled in the school district / charter school. The HLS is administered one time, upon initial enrollment in Indiana, and remains in the student's cumulative file.

Please note that the answers to the survey below are student-specific. If a language other than English is recorded for ANY of the survey questions below, the WIDA Screener will be administered to determine whether or not the student will qualify for additional English language development support.

Please answer the following questions regarding the language spoken by the student:

1. What is the native language of the **student**? _____
2. What language(s) is spoken most often by the **student**? _____
3. What language(s) is spoken by the **student** in the home? _____

Student Name: _____ **Grade:** _____

Parent/Guardian Name: _____

Parent/Guardian Signature: _____ **Date:** _____

By signing here, you certify that responses to the three questions above are specific to your student. You understand that if a language other than English has been identified, your student will be tested to determine if they qualify for English language development services, to help them become fluent in English. If entered into the English language development program, your student will be entitled to services as an English learner and will be tested annually to determine their English language proficiency.

For School Use Only:

NOTIFICATION OF AVAILABILITY OF ASBESTOS MANAGEMENT PLAN

AUGUST 2021

The Asbestos Hazard Emergency Response Act (AHERA) required the compilation of all asbestos containing materials (ACBM), within the public and private schools (K-12 grades). A building inspection by EPA-Accredited Asbestos Inspectors was conducted to determine, not only if asbestos was in our schools, but its condition. After the inspection, a plan to manage the identified asbestos was developed.

AHERA further required that the identified asbestos containing materials were to be checked every six months by the trained school personnel and that these materials were to be re-inspected by an accredited inspector every three years as long as the materials remain in the building.

The School Corporation complied with the AHERA by completing the asbestos inspection of our schools and submitting the Management Plan to the State of Indiana for the approval of the Governor. The implementation of the Management Plan began shortly after submittal and all the identified areas of concern have been corrected.

Anyone wishing to view a copy of the Management Plan for an individual school building will find it available in the Principal's office of each school. The Management Plan for all of the schools in the School Corporation is available for your viewing in the Administration Office. The Management Plan may be copied for a minimal fee of 5 cents per page, during regular school hours by notifying the school in advance to prevent scheduling difficulties.

If you have any questions concerning the AHERA Program, please contact your building Principal and/or the Designated Person, Mr. Tony Smock.

The Asbestos Management Plan will be updated annually as response actions are completed or as periodic surveillance reveals a change in the condition of the asbestos materials.

RE: Pest Control Policy
CC: Northeast Dubois County School Board

Northeast Dubois County School Corporation is committed to providing students a safe environment. It seeks to prevent children from being exposed to pests and harmful and unnecessary pesticides. While pesticides protect children from pests that may be found in the school and its surrounding grounds, under some circumstances they may pose a hazard to children. Therefore, pest control practices may involve a variety of chemical and non-chemical methods that are designed to control pests effectively while minimizing harmful pesticide exposure to children.

If you wish to be informed when pesticide applications will be made at the building in which you have children, please call Maintenance Director Tony Smock at 678-2781 Ext 4 to put your name on our registry. The School Corporation will provide notice at least two days prior to the date and time the pesticide application is to occur. If you need any further information concerning our pest control policy you may also call Tony at the same phone number.
